HASINI MANICKAM

B.Tech Artificial Intelligence & Data Science | Aspiring Machine Learning Engineer
GitHub: github.com/Hasinimanickam | LinkedIn: linkedin.com/in/hasini-manickam-9ba67b391

PROFESSIONAL SUMMARY

Motivated second-year B.Tech student in Artificial Intelligence and Data Science with hands-on practice in Python, data analysis, and beginner machine learning projects. Interested in building practical AI-powered applications and growing as a Machine Learning Engineer. A quick learner who enjoys exploring new tools and solving problems through projects.

EDUCATION

B.Tech – Artificial Intelligence & Data Science

VSB College of Engineering Technical Campus, Coimbatore | 2024–2028

Higher Secondary (Class XII) — 83%

TECHNICAL SKILLS

Programming: Python, Java, SQL

Data & ML: Pandas, NumPy, Matplotlib, Scikit-learn, Linear Regression, Random Forest

AI & App Development: Generative AI, Gemini API, Streamlit

Tools: Git, GitHub, VS Code, Google Colab

PROJECTS

House Price Prediction

Built a machine learning workflow to estimate house prices using Python, Pandas, and Linear Regression. Visualized model errors with a residual plot.

Student Performance Prediction

Compared Linear Regression and Random Forest models to predict student final grades. Random Forest achieved an R^2 score of 0.8148 on the project dataset.

Retail Sales & Inventory Copilot

Developed a Streamlit dashboard with sales KPIs, product and stock insights, charts, and an AI question-answering feature using the Gemini API.

CERTIFICATIONS & LEARNING

- AWS Skill Builder — AWS Cloud Practitioner Essentials
- Infosys Springboard — Python Foundations
- Infosys Springboard — Java Tools
- GUVI — Machine Learning / Data Science Webinar

STRENGTHS

Quick learner • Self-motivated • Punctual • Curious and eager to learn
